

The Essence of Life

Chapter 1 by Christopher Probulsky

Chapter 1

To him, life was nothing because, well, it was everything...an endless world of possibilities. Thoughts of something that vast, infinite, made him quite uncomfortable. How is one supposed to experience everything life holds in only one, short lifetime?

Since its impossible to experience everything, even a fraction of everything, why try? One could live the most utterly fulfilling life possible and yet, in the grand scheme of things, they would still be ignorant of so many aspects of life. That's what this life has in store for us - ignorance.

In this way, life is unfathomably cruel. Everything one experiences is just a taste, a sample of the possibilities of life. To truly experience something, to truly understand an aspect of life would take far more than only one short lifetime.
